

# *THE LAST NIGHT*

The night of 31<sup>st</sup> October, in the Arquillos happened strange things, it was too strange that the newspaper of the town published that.

The story is told by all the people in the town. Five friends met to call the dead in an abandoned house. They together went to the same school "San José de Calasanz " and they said all the people to come with them but anybody wanted. They walked around all the town until they found the abandoned house in "San Luis" street.

At dark night they together went into the house and made a circle, and then they started the spiritualism session. One of them, boss of all asked the principal main question. If in this house there is anybody that upsets you, said it and then go out of this house, the glass took two names and they were very surprised but they went out of the house. They said and went out. When they walked for five minutes they listened to a noisy and turned back their heads and the house was demolished. Their friends were killed.
